MUHAMAD RIFALDI ARYANSYAH

ELECTRONICS ENGINEERING

Diplomastudent inElectronicsEngineering with interest in automation, embedded systems, IoT, and industrial technology. Experienced in mechanical internship activities including welding and equipment maintenance.

EXPERIENCE

MECHANICAL INTERN

PT Java Kayana Sagara
2025

- Assisted mechanical maintenance and repair activities.
- Performed welding work for industrial operations.
- Helped inspect and maintain mechanical equipment.
- Collaborated with field technicians and operators.

PROJECT EXPERIENCE

Smart Door Lock System

Developed a smart door lock prototype using microcontroller technology.

Food Dehydration System

Designed an automatic food dehydration system with temperature monitoring.

Water Level Monitoring System

Built a real-time water level monitoring system using sensors and IoT concepts.

EDUCATION

POLITEKNIK NEGERI SEMARANG (POLINES)

Diploma III in Electronics Engineering
2023 - Present

SMK N 2 SLAWI

Agricultural Machinery Tools (AMP)
2020 - 2023
